LOCAL FIRE AND RESCUE PLAN
FOR SCOTTISH BORDERS
2014-2017

Working together for a safer Scotland
FOREWORD
Welcome to Scottish Fire and Rescue Service's (SFRS) local delivery plan for the Scottish Borders. I have the responsibility for preparing this plan, securing the agreement of the Local Authority to it and being held to account for the SFRS performance in the Scottish Borders. The plan, and indeed our strategies for service delivery are clearly aligned to the Community Planning Structure, as it is through building on our partnership activities that we will continue to contribute to the delivery of sustainable improvements in the safety of the communities we serve. This reflects our stated purpose as set out in the SFRS Strategic Plan.

We will continue to analyse both historical and predictive activity, and socio-demographic data and trends, to target resources to where they are most required and work to reduce inequalities across the area. It is our duty to consider the strategic priorities for SFRS in the context of local circumstances and we remain committed to delivering local solutions where the community requires the most assistance. Through working in partnership with organisations to gain a shared understanding of local issues we will work together to deliver solutions without duplication of effort to help to build strong, safe and resilient communities within the Scottish Borders.

I am committed to ensuring that our services are delivered with the dignity and respect of everyone in mind and with consideration of the rich diversity of communities across the Scottish Borders in supporting both community and firefighter safety.

Peter Heath, Local Senior Officer
Midlothian, East Lothian & Scottish Borders

Introduction

This plan provides information on the Scottish Fire and Rescue Services (SFRS) priorities in relation to the Scottish Borders and how their contribution to community safety will be measured. The Community Planning Partnership arrangements that exist across the Scottish Borders are the overall framework within which the SFRS delivers its services to local communities. By working with others, we aim to strengthen our connection with local authorities and other partners to ensure we meet the aspirations of the communities we serve.

The SFRS strategic Plan 2013-2016 sets out the four key aims of the SFRS and supports the SFRS Framework. This local plan takes full account of the aims and performance measures contained within these documents and the wider priorities of the local authority Community Planning Partnership.

The direction is supported by National strategic objectives to make Scotland a wealthier & fairer, smarter, healthier, safer and stronger and greener place. Through a concordat between the Scottish Government and the Convention for Scottish Local Authorities (COSLA), the strategic objectives have been extended into single outcome agreements, which include indicators and targets that provide the framework for how local authorities and their community planning partners such as the Scottish Fire and Rescue Service will deliver services.

In addition to the performance framework, compliance with legislation governing the SFRS, such as the Police and Fire Reform (Scotland) Act 2012 and the Fire and Rescue Service Framework for Scotland 2013 require the SFRS to deliver core services. These include, prevention and protection, enforcement of fire safety legislation, firefighting, fire investigation and rescue from a range of other hazardous situations.

A vast majority of respondents in the recent Scottish Borders household survey indicated that they satisfied with the service provided by the Scottish Fire and Rescue Service. They also felt they were provided with enough information to make them feel safe from fire in their own homes.

The Local Senior Officer leads a team of local managers whose job it is to work within local communities and ensure that the SFRS continues to deliver a high quality service and play its part in delivering better outcomes. They will contribute positively to improving outcomes and reduce inequalities across the Scottish Borders.

The local fire and rescue plan is a plan setting out:

- Priorities and objectives for SFRS in connection with the carrying out in the local authority’s area of SFRS’s functions,
- The reasons for selecting each of those priorities and objectives,
- How SFRS proposes to deliver those priorities and objectives,
- In so far as is reasonably practicable, outcomes by reference to which delivery of those priorities and objectives can be measured,
- How those priorities and objectives are expected to contribute to the delivery of any other relevant local outcomes which are identified by community planning,
- Such other matters relating to the carrying out of SFRS’s functions in the local authority’s area as SFRS thinks fit.
Strategic Assessment

A strategic assessment for the SFRS’s activities in Scotland established the type, frequency and impact of incidents that we attend. With this assessment in place the Local Senior Officer for the Scottish Borders can effectively identify key priority areas for the SFRS to target its resources at a local level.

National Assessment

The Scottish Government within their National Performance Framework have identified 16 National Outcomes they wish to achieve. Through delivery of this Local Plan the SFRS in particular will contribute to the following Outcomes:

- **National Outcome 1**: We live in a Scotland that is the most attractive place for doing business in Europe.
- **National Outcome 4**: Our young people are successful learners, confident individuals, effective contributors and responsible citizens.
- **National Outcome 6**: We live longer healthier lives.
- **National Outcome 8**: We have improved the life chances for children, young people and families at risk.
- **National Outcome 9**: We live our lives safe from crime disorder and danger.
- **National Outcome 12**: We value and enjoy our built and natural environment and protect it and enhance it for future generations.
- **National Outcome 15**: Our people are able to maintain their independence as they get older and are able to access appropriate support when they need it.

The priorities for the SFRS have been laid out in the Fire and Rescue Framework for Scotland 2013 with the following Strategic Aims defined within the Strategic Plan 2013-2016:

**Strategic Aim 1**: Improve safety of our communities and staff

**Strategic Aim 2**: More Equitable Access to Fire and Rescue Services

**Strategic Aim 3**: Improved outcomes through partnership

**Strategic Aim 4**: Develop a culture of continuous improvement
Equality Assessment

On 30 April 2013, the Scottish Fire and Rescue Service published its Equality Outcomes, in compliance with the Equality Act 2010 (Specific Duties) (Scotland) Regulations 2012. The SFRS Equality Outcomes are:

**Outcome 1:** People from all Scotland’s community groups feel confident in contacting the Fire and Rescue Service for advice and information on relevant non-emergency issues.

**Outcome 2:** Disabled, LGBT, BME, older people and people from minority faiths are aware of the services provided by the SFRS, particularly how these can be adapted to meet their own individual needs.

**Outcome 3:** People from all Scotland’s community groups feel safer in their homes and on our roads.

**Outcome 4:** Establish the Scottish Fire and Rescue Service as an employer of choice for people across protected characteristics.

**Outcome 5:** Provide a positive and healthy workplace culture that welcomes, embraces and develops people from across all protected characteristics.

**Outcome 6:** People from across all communities are enabled to live lives free from hate crime, harassment and domestic abuse/violence.

**Outcome 7:** Gypsy Travellers and migrant workers are safer, better informed and confident in Scottish Fire and Rescue Service engagement.

Our values

Our values framework sets out what we believe to be important in supporting how we deliver our services to the communities and support our own staff. At the core of this, is the safety of the communities we serve and we will do our utmost to enhance and support community safety and place a high value on the safety of our firefighters.

The communities of the Scottish Borders can rightly expect to receive a first class service from the SFRS grounded in our commitment to actively pursue our values in support of better outcomes.
Local Assessment

The Fire Framework for Scotland 2013 and our own Strategic Plan 2014-2016 give us clear direction in to what areas to focus our resources to ensure we contribute to the safety and well-being of the people living and working in The Scottish Borders. The local assessment addresses issues relevant to the local area. Through analysis of data, partnership working and consultation, local improvement and demand reduction plans can be developed to ensure positive outcomes and results are achieved.

The Scottish Borders Strategic Assessment identifies a number of social issues giving cause for concern in the Scottish Borders. These include an aging population, health issues relating to alcohol and smoking, increasing deprivation, increased home-related injuries and the continuing challenge of road related casualties. The Scottish Borders Strategic Assessment also identifies key pieces of work that are designed to introduce preventative measures with the aim of delivering better outcomes to the communities and reducing inequalities across the Scottish Borders.

The key priority areas in the Scottish Borders that are considered in the Local Assessment and those that action plans will be developed for are:

- Reduction of Dwelling Fires
- Reduction in Fire Fatalities and Casualties
- Reduction of Deliberate Fire Setting
- Reduction in Road Traffic Collisions
- Reduction of Unwanted Fire Alarm Signals

Within each of the priorities are a number of performance indicators that will be used to report and track performance against achieving the objectives. The performance indicators are listed in the following table along with an indicators of the previous year’s performance.
Local Operational Assessment
The table below sets out the key reporting performance indicators that we have identified for the Scottish Borders and the trend over the previous four years. The numbers stated are the number of actual incidents or events.

Table: Four years data of actual incidents and events within the Scottish Borders.

The priorities identified for the Scottish Borders are influenced by the above data. Driving down risk and focusing on the areas where the level of incidents is not reducing is a key aspect of the decision in selection of priorities.
Local Risk Profile

The Scottish Borders has a sizable and diverse community. It is estimated that 113,150 people now live across the area; this is projected to rise to almost 125,000 by 2035. Around 23,000 of the current population are over 65 and this is expected to increase to 39,000 over the next twenty years. Although being older is not a specific risk in its own right, risk is increased when age is combined with other factors, such as living alone, living in poverty and in isolation. Physical and mental health issues also contribute to an increase in risk.

Many people from underrepresented groups or vulnerable individuals can feel isolated within the communities due to a number of reasons, including language barriers and cultural differences. Isolation is not simply a matter of location, but also a matter of being engaged with the wider community. An individual can live surrounded by other people but still be isolated from others and services for any number of reasons. These people may be less likely to seek support from organisations and those around them.

The Scottish Borders Household Survey indicates that people living in the Scottish Borders think that it is a safe place to live with 97% saying the feel safe in their own home. By effectively working with partner agencies we can continue to engender this feeling of safety and well-being by promoting our services to all those who are vulnerable and help to reduce the impact of inequalities, particularly where fire has been used or is a risk factor.

The table below sets out the council wards and local fire stations and local station commander with contact details listed in the contacts section.

1. **Reduction of dwelling fires**

Dwelling fires across Scotland have steadily been declining over recent years. They are however still 30-35% higher in incidence than the remainder of the UK. Across the Scottish Borders, the number of fires in dwellings equates to 88 fires per 100,000 of population, which is 12% below the Scottish average.

Additional risk factors associated with the cause of fires in dwellings is the consumption of alcohol / drugs and smoking. House fires can have a significant negative impact on both individuals the community and wider public services. Working alongside our community planning partners, we will contribute towards improving home safety for those most at risk and the wider community.

**Aligns to:**

**Scottish Fire and Rescue Service Strategic Aims:**
1: Improve safety of our communities and staff
2: More equitable access to fire and rescue services
3: Improved outcomes through partnership
4: Develop a culture of continuous improvement.

**Scottish Borders:**
- Scottish Borders Single Outcome Agreement and aligned strategies.
- Agreement on Joint Working on Community Planning and Resourcing.
- Scottish Borders Older Peoples Joint Commissioning Strategy.
- Scottish Borders Strategic Assessment 2013.
- Scottish Border Household Survey 2013.
- Scottish Borders Community Safety Partnership Key themes.

**We will achieve it by:**
- Active participation in the Scottish Borders Community Planning arrangements and adopting a partnership approach to early intervention and risk reduction.
- Continue to deliver our Home Fire Safety Visit programme targeting those most at risk from fire.
- We will establish information sharing protocols with partners to help protect the most at risk in our communities. Key to success will be information sharing between health care, social work, housing and Police Scotland.
- Identifying opportunities for engagement with all members of our community to promote fire safety and good citizenship.

**We will contribute towards the Scottish target of a 10 % reduction, over a three-year rolling period.**

**In doing so we will add value by:**
- Continuing to help people to feel and be safe in the Scottish Borders.
- Continuing to promote confident & safe communities where residents feel positive about where they live.
- Contributing towards reducing the potential impact on the community and public services.
2. **Reduction of fire casualties and fatalities**

Fire related deaths and casualties in dwellings in Scotland have shown a significant reduction over the previous twenty years. Trends in fire casualties have shown that those at most risk include people living alone, with smoking and alcohol/drug consumption being contributory factors.

Within the Scottish Borders there were twelve fire related casualties in 2012 this is a 55% reduction since 2009. Although this is below the Scottish average there is still work to be done, working closer with key partners such as health and social care to ensure we develop a targeted approach to further reduce fire related injuries and deaths within the Scottish Borders.

**Aligns to:**

**Scottish Fire and Rescue Service Strategic Aims:**
1. Improve safety of our communities and staff
2. More equitable access to fire and rescue services
3. Improved outcomes through partnership
4. Develop a culture of continuous improvement.

**Scottish Borders:**
- Scottish Borders Single Outcome Agreement and aligned strategies.
- Agreement on Joint Working on Community Planning and Resourcing.
- Scottish Borders Older Peoples Joint Commissioning Strategy.
- Scottish Borders Strategic Assessment 2013.
- Scottish Border Household Survey 2013.
- Scottish Borders Community Planning Partnership Key themes.

**We will achieve it by:**
- Active participation in the Scottish Borders Community Planning arrangements and adopting a partnership approach to early intervention and risk reduction.
- Continue to deliver our Home Fire Safety Visit programme targeting those most at risk from fire.
- We will establish information sharing protocols with all partners to help protect the most at risk in our communities.
- Identifying opportunities for engagement with all members of our community to promote fire safety and good citizenship.
- Promoting the offer of Free Home Fire Safety Visits to all residents within the Scottish Borders and in particular those most at risk in our community through targeted referrals from partner agencies.

**We will contribute towards the Scottish target of a 5% reduction, over a three-year rolling period in relation to fire casualties and fatalities.**

**In doing so we will also add value by:**
- Continuing to help people to feel and be safe in the Scottish Borders.
- Continuing to promote confident and safe communities where residents feel positive about where they live.
- Contributing towards reducing the potential impact on the community and public services.
3. Reduction of deliberate fire setting (not including Dwellings)

Deliberate fire setting is a problem for our communities. In the Scottish Borders, the number of deliberately set fires is well below the Scottish average. Although deliberately set fires accounts for an average of 4% of all vandalism crimes in the Scottish Borders deliberate fire setting still remains an issue that we will work to continue to reduce in the Scottish Borders. There is a link between deliberately set Secondary fires and other forms of anti-social behaviour and thus makes it an important priority for action.

Aligns to:
Scottish Fire and Rescue Service Strategic Aims:
1: Improve safety of our communities and staff
2: More equitable access to fire and rescue services
3: Improved outcomes through partnership
4: Develop a culture of continuous improvement.

Scottish Borders:
- Scottish Borders Single Outcome Agreement and aligned strategies.
- Agreement on Joint Working on Community Planning and Resourcing.
- Scottish Borders Strategic Assessment 2013
- Scottish Border Household Survey 2013
- Scottish Borders Community Planning Partnership Key themes

We will achieve it by:
- Engaging in a multi-agency approach to tackling deliberate fire setting and fire related anti-social behaviour by the targeting of resources to those areas of need.
- Continuing in our contribution to the local Anti-Social Behaviour reduction plans and promoting positive outcomes.

Our target against the 3-year average is to continually reduce the number of deliberately set fires.

In doing so we will also add value by:
- Reducing the adverse effects and negative impacts which deliberate fire setting has on peoples’ lives within the Scottish Borders
- Working with partners to reduce anti-social behaviour through education, engagement and activities.
4. Reduction in Road Traffic Collisions

The SFRS have a crucial role to play in contributing and supporting a reduction in road traffic collisions through working with community planning partners.

Road casualty figures in Scotland have reduced significantly over the previous twenty years however, road casualty figures for Scotland show that we cannot lose sight of the work that remains to be done to make our roads safer. From evidence, it has been identified that young drivers and rural road driving are areas of specific risk within the Scottish Borders. We will target our education and awareness campaigns on these areas.

Aligns to:
Scottish Fire and Rescue Service Strategic Aims:
1: Improve safety of our communities and staff
2: More equitable access to fire and rescue services
3: Improved outcomes through partnership
4: Develop a culture of continuous improvement.

Scottish Borders:
• Scottish Borders Single Outcome Agreement and aligned strategies.
• Agreement on Joint Working on Community Planning and Resourcing.
• Scottish Borders Strategic Assessment 2013.
• Scottish Borders Road Safety Working Group

We will achieve it by:
• Education and awareness aimed at high-risk groups within our communities.

• Working with our partners within the Scottish Borders to identify risks and, through this collaboration, identify ways to promote safer driving and make our roads safer.

Our target against the 3-year average is to continually reduce the number of road traffic collisions on the roads in the Scottish Borders.

In doing so we will also add value by:
• Encouraging young drivers and other groups to be responsible road users through active engagement and education.

• Contributing towards reducing the number of people killed or seriously injured on roads in the Scottish Borders.
5. Reduction of unwanted fire signals

Unwanted Fire Alarm Signals (UFAS) are those occasions when there is no fire but an automated fire alarm system activates and Fire and Rescue Service resources are mobilised. Throughout Scotland, the number of UFAS calls remains stubbornly high. In the Scottish Borders the Fire and Rescue Service attend over 900 UFAS calls each year. This figure has remained at an unacceptable high level for several years and accounts for over 65% of our emergency response activity across the Scottish Borders.

Aligns to:
Scottish Fire and Rescue Service Strategic Aims:
3: Improved outcomes through partnership
4: Develop a culture of continuous improvement.

Scottish Borders:
• Scottish Borders Single Outcome Agreement and aligned strategies.
• Agreement on Joint Working on Community Planning and Resourcing.
• Scottish Borders Strategic Assessment 2013.

We will achieve it by:
• Working with the business and commercial sector at a local level to provide advice and guidance in the reduction of unwanted fire alarm signals.

• An enforcement and audit schedule of premises to ensure compliance with legislation.

Our target against the 3-year average is to contribute towards a continued reduction in UFAS within Scottish Borders.

In doing so we will also add value by:
• Reducing time and money lost to local businesses through the provision of advice and guidance.

• Realising efficiency savings by reducing the number of UFAS calls.

• Contributing towards making our roads safer by reducing fire engine movements.

• Contributing towards reducing our carbon footprint through fewer emergency responses.
Achieving Local Outcomes

Local risks were identified following considerations of political direction set by the Scottish Government, community needs identified through consultation and the operational resources and capacity of the SFRS. Following a process of identifying local risks within the Scottish Borders, priority actions to address them and expected outcomes have been set within this plan.

COMMUNITY NEEDS
Scottish Borders Community Planning Partnership
Scottish Borders SOA
Scottish Borders Safer Communities Team
Scottish Borders Police, Fire & Rescue and Safer Communities Board

POLITICAL DIRECTION
Scottish Government
Police and Fire Reform Act (Scotland) 2012.
Fire and Rescue Framework 2013.
Agreement on Joint Working on Community Planning and Resourcing (2013).

Safer Communities

Outcomes
Across the Scottish Borders, local scrutiny of the performance of the Fire and Rescue Service takes place at the Police, Fire & Rescue and Safer Communities Board on a quarterly basis. As part of the Community Planning arrangements across the area this ensures that in addition to the locally elected members, other key statutory and non-statutory partners have the opportunity to engage in the process of scrutiny.

Robust scrutiny of performance is essential in ensuring that the SFRS is delivering and contributing to improved outcomes for communities and ensuring that the SFRS plays its full part in contributing to successful delivery of the Scottish Borders Single Outcome Agreement. As a full and active partner in the local community planning arrangements, we will contribute positively to a safer Scotland.
Performance and Accountability

The Fire and Rescue Framework for Scotland 2013 and the Scottish Fire and Rescue Service Strategic Plan sets out a performance framework enabling the SFRS and Local Senior Officer to monitor, manage and report performance. This is used to identify areas where resources may need to be directed to enable improved performance against the priorities set out in this plan. We are committed to ensuring that information on how we are performing in the Scottish Borders is available to the public, local elected members, council officials and any others who may wish to access this information.

Local Scrutiny and Engagement

The Police and Fire Reform (Scotland) Act 2012 supports a framework for local scrutiny and engagement arrangements between local authorities and the Scottish Fire and Rescue Service. In the Scottish Borders, local scrutiny of the performance of the Fire and Rescue Service takes place at the Police, Fire and Rescue and Safer Communities Board on a quarterly basis. As part of the community planning arrangements this ensures that in addition to the locally elected members, other key statutory and non-statutory partners have the opportunity to engage in the process of scrutiny. Robust scrutiny of performance is essential in ensuring that the SFRS is delivering and contributing to improved outcomes for communities and ensuring that the SFRS plays its full part in contributing to successful delivery of Scottish Borders Single Outcome Agreement. As a full and active partner in the local community planning arrangements, we will contribute positively to a safer Scotland.

Low carbon Scotland: Meeting the emissions targets 2010 – 2022

The Scottish Government has set out ambitious targets for reducing emissions by 43% by 2020 across Scotland and in doing so making the most efficient use of energy. The Climate Change (Scotland) Act 2009 and subsequent policies and proposals for how this might be achieved set out clearly the need for all public bodies to contribute to achieving the targets. We will underpin our activity with a concerted effort to examine and seek opportunities to reduce our emissions and identify opportunities to work in partnership to maximise this potential. We will work to support delivery of the outcomes of the Scottish Borders Low Carbon Strategy and Action Plan and in doing so aim to lessen the impact of delivering services on the environment.
Review

To ensure this Local Plan remains flexible to emerging local or national priorities a review may be carried out at any time but will be reviewed at least once in its lifetime. A review may also be carried out if the Scottish Minister directs it or if a new Strategic Plan is approved. Following a review the Local Senior Officer may revise the Plan.

Glossary of Terms

Accidental: Caused by accident or carelessness. Includes fires which accidentally get out of control.

Casualty: consists of persons requiring medical treatment beyond first aid given at the scene of the incident, those sent to hospital or advised to see a doctor for a check-up or observation (whether or not they actually do). People sent to hospital or advised to see a doctor as a precaution, having no obvious injury, are recorded as ‘precautionary check-ups’. Casualty figures do not include fatalities.

Community Planning: The purpose of community planning is to get public services working together with each other and with communities and the third and private sectors to make the most effective use of their collective resources to deliver better outcomes for communities.

Deliberate: Covers fires where deliberate ignition is suspected

False Automatic Fire Alarm: is defined as an event in which the Fire and Rescue Service believes they are called to a reportable fire and then find there is no such incident. These can be Malicious, of Good Intent or caused by Apparatus. The False Fire Alarms recorded for our indicator are those caused by Apparatus, as these constitute a significant majority of False Fire Alarm incidents.

Fatality: a casualty whose death is attributed to a fire is counted as a fatality even if the death occurred later. Fatalities associated with Other Incidents can include attendance to assist Police or Ambulance colleagues when a person has been found who has committed suicide, for example. Often there is little we can do as a Service to influence this particular figure.

Primary Fires: includes all fires in buildings, vehicles and most outdoor structures or any fire involving casualties, rescues or fire attended by five or more pumping appliances.

Secondary Fires: These cover the majority of outdoor fires including grassland and refuse fires unless they involve casualties or rescues, property loss or if five or more appliances attend. They include fires in derelict buildings but not chimney fires.

Single Outcome Agreement: The Single Outcome Agreement sets out how the Community Planning Partnership will work together to deliver agreed national and local outcomes and be held accountable for their delivery
